

CCH® ProSystem *fx* PDFlyer

Release Notes - December 2022

Welcome to CCH ProSystem *fx* PDFlyer v.19

This document provides important information about the release of CCH ProSystem *fx* PDFlyer v.19. Please review it carefully. If you have any questions, please call the Wolters Kluwer Support Centre at 1-800-268-4522.

Our Support Centres are Going Digital: Emails are Now Our First Priority

This is the digital age. As part of our transformation to digital support centres, we are pleased to announce that email inquiries will now be given first priority. This digital shift will allow us to process your requests even faster, and better meet your needs.

From now on, **use emails instead of telephone** to contact [Customer Service](#) and the [Support Centre](#) to save time and get accelerated service!

New in this version

Adobe® Acrobat® 64-bit Support

Adobe Acrobat DC 32-bit and 64-bit for both the Continuous and Classic tracks continue to be supported.

Unsupported Adobe Acrobat Versions for CCH ProSystem *fx* PDFlyer

CCH ProSystem *fx* PDFlyer no longer supports DC 2015 or 2017 Classic or Continuous versions.

PDFlyer API Name Change

The API plug-in for CCH ProSystem *fx* PDFlyer has been renamed from QTPDFlyer to CCHPDFlyer.

Installing CCH ProSystem *fx* PDFlyer
